

THE COLUMBIA EVENING MISSOURIAN

THIRTEENTH YEAR

COLUMBIA, MISSOURI, FRIDAY, OCTOBER 1, 1920

NUMBER 26

CROPS UNHURT BY THE FROST OF LAST NIGHT

Chinch Bugs, Army Worms and Hessian Flies That Have Been Pestering Farmers Were Destroyed.

NEXT FROST DUE OCT. 15

Will Give Plenty of Time for Late Corn and Cotton to Be Cared For.

The frost last night did little damage, according to E. A. Logan of the U. S. Bureau of Crop Estimates. Nothing was seriously hurt. Even the most tender garden stuff will survive. The frost is a good thing if it stops now, said Mr. Logan. The chinch bug, army worms and the Hessian fly have been pestering the farmers this year, and the little frost will do away with most of them.

"It is warmer now, and we ought not to have any more frost till October 15," he said. "This will give the late corn plenty of time to get out of the way. The Missouri cotton crop is late this year on account of the enormous rains. Fifteen days of good warm weather will increase the state's cotton crop."

Pemiscot and Duncan counties raise 75 per cent of the cotton in the state. These counties are suffering from the effects of too much rain, which caused the weeds to get such a headway in the cotton fields."

PLAN SUNDAY SCHOOL WORK

Baptist Appoint Teachers and Will Have Quartet and Orchestra.

The teachers and officers of the Baptist Sunday school met at the Baptist annex at 6 o'clock yesterday evening. After a luncheon consisting of a salad, sandwiches, coffee and doughnuts, plans for organizing and developing the work of the Sunday school and getting in touch with all the Baptists in Columbia in order to interest them in the work were discussed.

E. W. Stephens, although he has been in ill health for some time, will continue to have charge of the Bible class. Dr. W. L. Dorgan will teach the class for University and college women. The freemason and sophomore men will be taught by Prof. R. F. Hoffman, the juniors and seniors. Miss Ruth Keith will teach the class for high school boys and Joseph Shy the class for the juniors and seniors. Miss Ruth Keith will teach the high school girls assisted by Miss Eulalie Page.

Miss Julia Sampson will be in charge of the Sunday school quartet. Other members of the quartet are Mrs. J. P. Hetzler, A. F. Neate and Joseph Shy.

Levan Atherton is in charge of the Sunday school orchestra which has about fifteen members.

PLAN TO FORM ACQUAINTANCES

Methodist Student Organization to Have Friendship Group.

In harmony with "Hello Day" on the University campus is the friendship group movement in the Methodist student organization. This week the student organization is visiting all Methodist students and forming acquaintances among them.

The organization consists of ten teams of boys and ten of girls. There are seven on each of the boys' teams and five on each of the girls', making with the team leaders and the student secretary, E. H. Newcomb, 143 members.

The plan was tried out successfully on a smaller scale last year. A spirit of cordiality was developed among the students of the Methodist Church and many warm friendships were formed. The fact that so large a number of students are so interested in forming an active part of the friendship group this year is a result of the friendship shown them last year by the smaller organization. E. H. Newcomb, Methodist student secretary, expects still greater results this year.

A well formed low pressure is coming out of the northwest, and the weather there has turned milder with increasing cloudiness. This low pressure will dominate the Plains and Central Valleys about Sunday.

The Missouri roads are rough in spots, but otherwise the traveling is fair.

Fair weather with steady rising temperature will prevail over Saturday.

The speakers' bureau of the Republican National Committee regards Major Dent as one of its most faithful and efficient orators. Mr. Moore says. A meeting of the advisory committee of the Republican Club has been called to convene at the Y. M. C. A. Building at 4 o'clock Monday afternoon. Matters of importance with regard to the mass meeting Wednesday will be discussed at that time.

WAR DEPT. SELLS SUPPLIES

County Farm Bureaus Order Harness, Saddles, Wagons.

The plan for farm bureaus to take over from the War Department surplus material that can be utilized by farmers has been approved by the executive committee of the Missouri Farm Bureau Federation.

The War Department has several hundred thousand sets of high grade harness, 100,000 McClellan saddles, many thousands of wagons, auto truck trailers, blacksmith forges, tool chests, tarpaulins, etc., in addition to shoes and many other articles of clothing. Samples of these will be sent to the various state farm bureau federations and a catalog will be prepared picturing and describing these articles.

County orders will be combined by the state into a state order and these in turn will be concentrated into a large national order. By buying in this way the War Department offers the very best terms and will work with the national farmers' organization in getting this material to the consumer.

R. O. T. C. COMPETITION ON

Excuse from Drill the Reward for Those Who Win.

Release from one day's drill is the reward to be given the companies scoring the highest number of points in the R. O. T. C. competitive drill.

In the infantry competition yesterday afternoon on the Campus, Major W. E. Persons, Major Wood and Lieut. J. E. McCannell were unable to decide between Companies B and C, first battalion. These companies were put through a hard hour's work in the manual of arms and squad movements. No time was left for judging the companies of the second and third battalions. The final competition between the two first battalion companies whose score is tied, and the second and third battalions will be continued Monday afternoon. Since the first battalion is composed of sophomores and the other battalions are made up of freshmen, there will be no final competition for the best company in the whole outfit.

Battery B won over Battery A in the Field Artillery competition, on Rollins Field judged by Major W. E. Persons, commander of the University R. O. T. C. unit, and Lieut. J. E. McCannell. Men of Battery B are therefore excused from an hour's drill.

NO SICKNESS FROM WEATHER

Expect Usual Epidemic of Bad Colds When Weather Warms.

No ill effects upon the health of the community have been brought about by the sudden change in the weather for the last forty-eight hours, according to Columbia physicians.

"Any illness this change in the weather may cause," one physician said, "will not be noticeable for two or three days. There will follow the usual epidemic of bad colds if the weather again becomes very warm. Proper weight in clothing is the best means to prevent catching colds."

MENUS CATER TO THE WEATHER

Soup and Hot Chocolate Rush Ice Cream for Popularity.

"Soup, hamburger, hot chocolate, please!" This is the call in cafes, hotels, and lunch rooms.

The sudden change in temperature has caused cold drinks and ice cream to lose some of their popularity.

The average person lets the thermometer determine what he shall eat or drink, and doesn't bother about calories.

CHURCH MEMBERSHIP OF 3,079 CAN'T FIT INTO THE 2,650 SEATS

If all Columbia church members were to go to church the same Sunday, there would not be room for them, according to questionnaires filled out recently in a religious census of Columbia. The Christian, Methodist, Presbyterian, Episcopal and Baptist churches have a total membership of 3,079. The total seating capacity of these churches is 2,650. Four hundred and twenty-nine members would have to stay outside. Claims that the University is an infidel institution are disposed of by the census. About fifteen hundred of these have taken membership or affiliate membership here. Between ninety and one hundred faculty members are members of churches. This makes the percentage of students who belong to a church far greater than it is for the town as a whole. The percentage of faculty church members is slightly greater than that for the town.

More than six hundred students are regular attendants at Sunday school. More than four hundred do church work, as teachers or members of young people's societies. Ninety-nine are preparing to go into religious work when they leave school.

REFLIN PLEASES LEADERS

Local Democrats Praise Alabama Congressman for Speech.

Democratic leaders of Columbia and Boone County were unanimous today in expressing their satisfaction with the speech made by Congressman W. E. Reflin at the University Theater and the speech made by Thomas H. Heflin, congressman from Alabama, a candidate for senator from that state.

G. B. Kapp, chairman of the Democratic central committee, characterized Reflin's address as a "wonderful speech" and was of the opinion that it would aid materially to the expected Democratic majority in Columbia and Boone County. Mr. Kapp said that similar meetings will be held at frequent intervals during the rest of the time before the election, November 2. Among the prominent speakers who will be here is J. B. Shouse, assistant secretary of the treasury, who will address local Democrats October 16.

"Mr. Heflin made the issue clear on the League of Nations than any other speaker I have yet heard," Dr. J. B. Cole, chairman of the Boone County Convention Club, said, in discussing Wednesday night's meeting. "His speech did the party a great deal of good. It was one of the best delivered speeches I have ever heard." Doctor Cole, Dr. W. S. Dyar, and Miss Ella V. Dobbs will organize a new branch of the club tomorrow night at the Robnett schoolhouse, east of Columbia.

Congressman W. L. Nelson and R. L. Hill accompanied Mr. Heflin to Tipton today. Mr. Heflin will speak at Tipton, Marshall, Moberly and other places in Missouri.

TO APPOINT CLUB SECRETARY

Commercial Club Appoints Committee to Make Selection.

A committee of three to select a new secretary for the Commercial Club was appointed at the weekly luncheon in the Daniel Boone Tavern today. Five applicants for the position will be considered. Members of the club want to be sure they are getting the best man, according to President F. B. Rollins and some delay has been caused by this search. The members of the committee are Barton Robnett, Sydney Stephens and R. L. Hill.

It was voted to co-operate in every respect with the Missouri Good Roads Federation in the \$60,000.00 road bond issue.

W. F. Maring presented a plan to have a new artillery battery of the Missouri National Guards established in Columbia. The plan is to organize a new battery of the same nature as the old Company F which was absorbed during the war.

R. L. Hill, who recently returned from attending a meeting of the Committee of 17 at St. Louis, made a report.

During the meeting a communication from the Mount Grove Electrical Company in regard to an electric road, planned to be built from Lebanon, Mo., through Jefferson City to Columbia, was read.

GRAIN CROPS HELP PUT ALL PRICES DOWN

Large Production Also Responsible for Decline, Says Joseph P. Griffin of Chicago.

CREDITS GRAIN EXCHANGE

Wholesale Grocers Announce Their Prices Fell 25 Per Cent in Last Four Weeks.

By United Press.

CHICAGO, Oct. 1.—All commodities are returning to their normal price levels, according to a statement issued by Joseph P. Griffin, former president of the Chicago Board of Trade. The big crops and large production are responsible for the decline, according to Griffin. It is merely a natural turn of prices. He praised the grain exchanges and said that they had done much to help pull down the prices of grains.

The wholesale grocers announced that wholesale prices had declined 25 per cent in the last four weeks. Nothing will stop the decline until prices have reached their normal level, according to the grocers' bulletin.

U. S. JOURNALIST TO ORIENT

Hayden Nichols, Assistant University Publisher, Goes to Manila.

Hayden Nichols, assistant university publisher, who was graduated from the School of Journalism of the University of Missouri last spring, is to be added to the little army of Missouri graduates now engaged in newspaper work in the Orient.

It is not Japan, nor China, but the Philippines which will claim a Missouri graduate this time. Manila is Nichols' destination. He will be on the editorial staff of the Manila Bulletin, the leading Spanish-English newspaper in the Far East. R. C. Bengett, another School of Journalism graduate, has been a member of its editorial staff for two years.

While enroute to Manila, Nichols expects to visit several other Missouri graduates in Tokyo, Japan, and also to shake hands with J. B. Powell and Don D. Patterson, who are with Millard's Review of the Far East in Shanghai, China.

Nichols will leave Columbia next Saturday for his home in Macon, Mo., to spend a few days with his family before going to San Francisco. He will sail from there October 16.

"HELLO DAY" AT UNIVERSITY

Both Men and Women Show Increase in Friendly Spirit Today.

"Hello!"

Pause—Then, "Hello!" By the word "lowly" of the little southern girl, the "hi" men and the more diffident, shy "hello" spoken with a slight intake of the breath, an increasing spirit of friendliness was shown shown on the walks and paths of the University campus today.

"Sound off when you pass here" was the sign placed in front of the Engineering building about 10:30 o'clock in the morning. And the students even exchanged greetings with their friends across the campus. Whether these were given entirely in the spirit of friendship could not be vouched for by those who witnessed this amazing effect of "Hello Day."

Men were quicker to speak than were most of the women. The girls were waiting to be friendly, but hesitated, anxious for the other one to speak first. Evidences were also shown that some of the men wanted the "hello" spirit to extend to both sexes. A tall student wearing a purple cap grinned and said "hello" to a pre-occupied girl with a column on her coat lapel. She smiled and smiled.

An upperclassman student of agriculture passed up the "hello" of a man to speak to three girls. "Hello Day" did not make every student speak to all others whom he met, but it did effect a more general feeling of friendship among them.

Y. W. C. A. Budget Campaign Starts With \$250 Pledged in Two Minutes

The amount raised, during the first day of the Y. W. C. A. financial campaign, has not been determined. However, the reports from individual workers is encouraging. Every day during the campaign, the three team captains will meet at 4 o'clock to make their reports. The angle of the triangle, representing the team which has raised the largest amount during the day, will then be raised.

The Y. W. C. A. campaign to raise the year budget of \$3800 was begun at 5 o'clock yesterday at the regular meeting of the association. Two minutes after 5 o'clock more than \$250 had been raised. Three teams each of thirty girls headed by Miss Elsa Bradley, Miss Corinne Mackey and Miss Pamela Shackleford will make a canvass of all University women before Monday night, in this way giving every University woman a chance to make her pledge to the association. A large blue triangle with each angle representing one of the teams will be placed outside the Y. W. C. A. Room and will record the amounts raised by each team.

Miss Katherine Hillis, who recently resigned from her office as Y. W. C. A. president because of illness, sent her gift to the meeting and also a message wishing all members of the association the best success in their campaign.

The University band under the direction of George Venable, made its first appearance this year, playing three numbers, "The Chorus of the Romans"; "C Minor Prelude" by Rachmaninoff; and "A Slavic March." As an encore they played "Old Missouri." This organization has been playing together for only three weeks but the finished manner of their performance gave the impression of having played together a much longer time.

Miss Lucy Riggs, student executive secretary of the south central field, described the work of the Y. W. C. A. in industrial centers and the responsibility and privilege of the women of today in seeing that this work is continued.

"Remember" she said "if you have ever wished that you were a man because you believed that men had more power, that it is in women that there lies the center of power for civilization. Ours is a glorious heritage. You can use your heritage in two ways. You may take the easiest way in which you consider yourself before others or you may make yourself a part of the scheme to make the world better."

"I like to think that the influence of the Y. W. C. A. will be felt not only while you are in college but will be a great force projecting itself out into the future."

"If you are to use your heritage properly you must budget your time, devoting it to the things really worth while. The Y. W. C. A. here is setting itself a big task but I believe you will carry it on to victory. I hope that in carrying out the task you have undertaken you will vision women who will have a fair chance because here in the University of Missouri existed the Young Women's Christian Association."

REAL RELIGION STILL ALIVE

University Men Donate Labor to Help Build Sunday School Room.

"Religion without works is dead." This is an old saying but it is especially applicable to the religion possessed by the University men's class of the Broadway Methodist Church, who are showing that their religion is not dead.

The class has grown so much this term that it has become too large for its classroom. The church decided to make a new classroom by enlarging the basement. The students of the class, feeling that it was not the duty of the two people to provide a meeting place for members of churches from all over the state, have volunteered to help in the work.

The church has let a contract for enlarging the basement so that it will include the space under the McAllister Chapel, the south portion of the church which is cut off from the main auditorium by sliding doors. The walls of the new room will be plastered and the floor will be of concrete.

The contract calls for an expenditure of \$2500, including labor, and the contractor expects to have the work completed in about three weeks.

By a special arrangement made with the contractor the expense saved by the use of donated student labor will be returned to the church. It is expected that from twenty-five to fifty members of the class will work Friday afternoon and Saturday morning. A few are working at odd hours during the week.

The attendance of the class increased 50 per cent during September. The first Sunday 91 were present; the next Sunday, 105; the next 120 and last Sunday there were 148. The total enrollment of the class is 178. The class has set its goal for 250 men students at the Methodist Church every Sunday morning.

RECORD ON PARCEL POST MAIL

Post office Begins a Check to Cover Fifteen Days.

Is the parcel post division of the government mail a paying or losing proposition or not? According to Postmaster L. J. Hall, this will be known by a rating of fifteen days. This rating started this morning and will last until midnight of the fifteenth of this month. Every parcel post package will be counted, both incoming and outgoing. Every insured and C. O. D. parcel will be counted also.

At the end of the fifteen days a record will be made up and sent to Washington, and with records of all other post-offices, the government will know whether or not the parcel post is an asset. Records and ratings of this kind have been made before but it is necessary to make a new rating at intervals.

With regard to the outgoing mail of the parcel post a record is made of the different zones and the amount of business sent to each zone. As the charge of the parcel costs accordingly to the zone of its destination, this is necessary. If an adjustment is needed the government will base its action upon the statistics of the records kept and made up by the various Postmasters.
